### 12. RACE FORMAT

#### Rok Cup Italia Format

If the number of drivers taking part in the event does not exceed the maximum number of drivers admitted on track, the race format is as follows:

- free practices
- qualifying practices\*
- race-1
- race-2

CATEGORY	RACE-1	RACE-2
MINI ROK	12 Km	10 Km
JUNIOR ROK	20 Km	16 Km
SENIOR ROK	20 Km	16 Km
EXPERT ROK	20 Km	16 Km
SUPER ROK	20 Km	16 Km
SHIFTER ROK	20 Km	16 Km

The starting grid of race-1 is determined by the result of the qualifying practices.

The first eight positions of the starting grid of race-2 are obtained by the reversal of the arrival order of race-1: the 1<sup>st</sup> (first) classified driver in race-1 starts eighth in race-2, the 2<sup>nd</sup> (second) classified driver of race-1 starts seventh and so on until the 8<sup>th</sup> (eighth) classified driver, who will start in first position.

In case two or more categories are incorporated in the same race, the reversal is done according to the first eight positions obtained (without considering the different categories they are from).

If the number of drivers taking part in the event exceeds the maximum number of drivers admitted on track, the race format is as follows:

- free practices
- qualifying practices\*

# ROK CUP TROPHY 2024

## SPORTING REGULATION

*(This is just a translation, in case of interpretative conflicts, the Italian text approved by ACI SPORT will prevail)*

- heats or qualifying heats\*\*
- race-1
- race-2 optional

### **Rok Cup South and Rok Cup Challenge format**

The race format, as well as the number of laps are decided by the Race Specific Regulation (RPG) of each single race and by the Karting Sporting Regulation.

- Free practices
- Qualifying practices\*
- Prefinal or, if necessary, heats or qualifying heats\*\*
- Final

\*The format for the **qualifying practices** is as follows:

For each class it is expected a session of official qualifying practices.

The drivers take part to the official qualifying practices and if it is necessary, they are divided by the marshals in two or three series. In each session, a number of drivers not exceeding the capacity of the track is allowed on the track at the same time. Each driver chooses when to start in his session and the start of his session is considered valid if the driver has passed the line of no return drawn at the exit of the pre-grid; the lap counts as valid if it is completed. The valid qualifying time is the best one acquired during one's practice session. In case of ex-aequo, the 2nd best time is considered and so on.

The final ranking of the qualifying practices is determined as follows:

- in case of a single series the grid is determined by the ranking of the qualifying heats, realized according to the increasing order of the best lap time achieved by each driver.
- In case of two or more series the ranking is determined as follows:  
(case of two series) 1st place goes to the winner of the 1st series (fastest time in general); 2nd place goes to the winner of the 2nd series; 3rd place goes to the second classified of the 1st series; 4th place goes to the second classified of the 2nd series; the 5th place goes to the third classified of the 1st series; and so on;  
(case of three series) 1st place goes to the winner of the 1st series (fastest time in general); 2nd place goes to the winner of the 2nd series; 3rd place goes to the winner of the 3rd series; 4th place goes to the second classified of the 1st series; 5th place goes to the second classified of the 2nd series; and so on.

And in the same way, following the same system if there are other series.

If a driver has no valid time, he is assigned the last position in the standings. In the case of multiple drivers without valid time, the positions are determined by drawing lots. Mechanics are not allowed to help their drivers if they have crossed the line of no return drawn at the exit of the pre-grid. A driver who stops in the repair area or in the parc fermé is forbidden from starting again.

If the number of drivers taking part in the event exceeds the maximum number of drivers admitted on track,

\*\*the format for the **qualifying heats** is as follows:

At the end of the official qualifying practices, a final ranking of the official qualifying practices will be drawn up for each category based on what previously specified. According to this ranking, the drivers of each category will be divided into different groups as follows (A, B, C, etc.; number of drivers for each group equal to, at most, half the capacity of the track) example in case of 4 groups:

group A: 1<sup>st</sup>, 5<sup>th</sup>, 9<sup>th</sup> ... classified

group B: 2<sup>nd</sup>, 6<sup>th</sup>, 10<sup>th</sup> ... classified

group C: 3<sup>rd</sup>, 7<sup>th</sup>, 11<sup>th</sup> ... classified

group D: 4<sup>th</sup>, 8<sup>th</sup>, 12<sup>th</sup> ... classified

and so on...

# ROK CUP TROPHY 2024

## SPORTING REGULATION

*(This is just a translation, in case of interpretative conflicts, the Italian text approved by ACI SPORT will prevail)*

Each group must compete with all groups, one by one, as follows:

- A with B
- C with D
- A with C
- B with D
- A with D
- B with C

And so on, according to the number of groups defined.

The starting grid for each qualifying heat is always determined by the final ranking of the official qualifying practices.

The following penalties will be assigned according to the arrival order of each heat:

0 for 1<sup>st</sup> place; 2 for 2<sup>nd</sup> place; 3 for 3<sup>rd</sup> place and so on, adding one penalty point for each additional place.

- Any Driver who, after the start, has not completed all the scheduled laps, even if he has not finished the heat, will be classified according to the number of laps he has actually completed.

- If a Driver does not take the start in a heat (no matter for what reason), he will receive a number of penalties equal to the number of participants of the heat  $A \diamond B$  plus 1 ( $A+B+1$ ).

- If a Driver has been black-flagged or excluded by decision of the sporting marshals, he will receive a number of penalties equal to the number of participants of the heat  $A \diamond B$  plus 2 ( $A+B+2$ ).

At the end of the qualifying heats a ranking will be drawn up by adding up all the penalties given to each Driver. In case of ex-aequo between two or more drivers, the best position in the final ranking of the qualifying practice will be taken into consideration.

The classified Drivers, until reaching the maximum capacity of the track, will take part in the final phase of the race.

Final B: Upon the decision of the Organizer of each single round of the Rok Cup Trophy it is possible to organize the Final B, restricted to the drivers excluded from the final (or race-1). Such possibility must be mentioned in the Race Specific Regulation (RPG).

Races are scheduled on one or several days; specification to be mentioned in the Race Specific Regulation (RPG).

The Race Specific Regulations (RPG) of each single race of the Rok Cup Trophy can have different race procedures and formats.

According to the number of registered drivers, categories can be incorporated (with separated rankings) in categories of the same Rok Cup Trophy with similar characteristics.

***For anything not specified in the Rok Cup Trophy Sporting Regulation, refer to the ACI SPORT RNS, RDS Karting Sporting Regulation.***
