(This is just a translation, in case of interpretative conflicts, the Italian text approved by ACI SPORT will prevail)

a) non-official free practice: during their performance the given health emergency plan is compulsory as well as the presence of track personnel for the surveillance of the track. In order to attend the non-official free practices drivers must be duly registered for the race.

b) official free practice: each driver will be given the opportunity to drive at least 3 laps of the track. ~~Drivers who do not complete at least 1 lap will not be admitted to the race.~~ During these practices no more than 43 45 karts will be allowed on the track at the same time. From the official free practice onwards the use of the transponder is compulsory.

c) qualifying practices (timed): they are carried out, for each class and category, with the single session system of maximum 10' (ten minutes) (RDS Sporting Karting 2024).

For each group it is expected a session of official qualifying practices of 6 minutes.

In each session, a number of drivers not exceeding the number 36 is allowed on the track at the same time. Each driver chooses when to start in his session; the start of his session is considered as valid if the driver has passed the line of no-return drawn at the exit of the pre-grid; the lap counts as valid if it is completed. The valid qualifying time is the best one acquired during one's practice session. In case of ex-aequo, the 2nd best time is considered and so on.

The final ranking of the qualifying practices is determined as follows:

-in case of a single group the grid is determined by the ranking of the qualifying heats, realized according to the increasing order of the best lap time achieved by each driver.

-in case of two or more groups the ranking is determined as follows:

(case of two groups) 1st place goes to the winner of the 1st group (fastest time in general); 2nd place goes to the winner of the 2nd group; 3rd place goes to the second classified of the 1st group; 4th place goes to the second classified of the 2nd group; the 5th place goes to the third classified of the 1st group, and so on;

(case of three groups) 1st place goes to the winner of the 1st group (fastest time in general); 2nd place goes to the winner of the 2nd group; 3rd place goes to the winner of the 3rd group; 4th place goes to the second classified of the 1st group; 5th place goes to the second classified of the 2nd group, and so on.

And so on, following the same system in case of other series.

If a driver has no valid time, he is assigned the last position in the standings. In the case of multiple drivers without valid time, the positions are determined by drawing lots. Mechanics are not allowed to help their drivers if they have crossed the line of no-return drawn at the exit of the pre-grid. A driver who stops in the repair area or in the parc fermé is forbidden from starting again.

d) qualifying heats and pre-final:

The **qualifying heats** and the **pre-finals** are managed as follows:
